it can be maneuver with oars.

# MOTOCICLETTA/ MOTORBIKE

● Motocicletta - MOTORBIKE

The motorbike is a two wheeled means of transport, used as the car.

# BIKE/BICI

## 🚲 Bici -Bike

The bicycle in London is increasingly used, despite everything.  
It is the fastest way to get around the center, often congested by heavy car and bus traffic.

# TAXI

## ○ Taxi

London taxis as we know them appeared after the end of the Second World War.

# BUS/AUTOBUS

## ⦿ Autobus- Bus

The red color: It comes from a very simple motivation; being the color also used for telephone booths and post boxes, it made them easily recognizable even with rain or the typical London fog.

# PLAN/AEREO

- Aereo - Plane

Why when the plane dims the cabin lights? For safety reasons and attention in the eyes of passengers to adapt to the outside light and have greater visibility.

# TRAIN/TRENO

- Treno - Train

One the most famous trains in the UK is Flying Scotsman which connects London and Edimburg continuously.

# UNDERGROUND/ METROPOLITANA

- Metropolitana - Underground

London underground is the oldest underground network in the world and the largest in Europe

# METACOGNIZIONE

È stato molto bello realizzare questo power point per diversi motivi:

Innanzitutto siamo state tutte puntuali, ben organizzate e ci siamo anche divertite. Ma allo stesso tempo abbiamo scoperto varie curiosità sui mezzi di trasporto inglesi.
